

PHOTOVOLTAIC CARPORTS

Make the most of your car park by generating energy

We design, build and finance high-power solar carports for all types of car parks: corporate, public, multi-storey, trucks or buses.

Parking with 100+ spaces? **Let's talk about it.**

300+ MWp

Installed

> 15 years

of experience

10 –12 years

Return on investment

0 € CAPEX

possible via PPA

◆ **Self- consumption**

Photovoltaic production integrated into your consumption, with the surplus being sold back to the grid.

◆ **Vehicle protection**

Shelter from rain, hail and sun. Suitable for cars, trucks and buses.

◆ **EV charging stations**

Direct coupling to charging stations powered by your solar production.

◆ **Measurable CSR impact**

Tons of CO₂ avoided, annual report, valuation of your environmental commitments.

◆ **Monetizable surface**

Renting to a third-party investor or PPA contract, your car park becomes a productive asset.

◆ **Flexible financing**

Direct investment, lease with option to purchase or PPA (zero CAPEX) depending on your financial strategy.

OUR SOLUTIONS

Three types of structures. Because every car park is unique.

Concrete structure

Design, modular, very fast installation
Very light foundations, self-supporting structure.

Steel structure

Optimal performance/cost ratio. Suitable for any type of parking configuration. Single or double row or even global solar coverage including roads

Wooden structure

Natural aesthetics, very popular in the tertiary sector, hotels and municipalities. Renewable material, favourable carbon footprint.

FINANCING & REFERENCES

FINANCING

Three models, zero constraints

Own investment

You finance.
Asset on your balance sheet.

→ Maximum ROI

Lease with option to purchase

Fixed rents. option can be activated at any time
→ fixed cash flows €/year

Power Purchase Agreement

Enerdeal invests. You pay for energy.

→ €/MWh

Process · From A to Z

Feasibility study and business plan · Detailed engineering ·
Building Permit · Installation · Grid connection · Maintenance ·
Supervision · Funding
